e. There were no General Courts-Martial during the month of July.

PAGE (1)

7. Morale, PX, Postal Affairs, Liberty, R&R

a. Morale is considered to be excellent to outstanding.

b. PX services were made available to five companies in the field through the mobile exchange. A sufficient supply of SP rations were available for the necessary health and comfort items.

c. Postal service continues to be sporadic.

d. Liberty was not authorized during this period.

e. The R&R program continues to be a major morale factor within this command. There were 55 In-Country and 96 Out-Of-Country R&R quotas utilized during this reporting period.

8. Civil Affairs, Military Government, Community Relations

None, due to the tactical location of the Battalion during the period.

ENCLOSURE (1)

S-2 CHRONOLOGY

1. SIGNIFICANT EVENTS. The month of July saw a substantial increase in enemy activity within our TAOR. The increase was primarily due to an attack on a convoy on route #9 and an ambush on a platoon of Company "M". The attack on the convoy was a plan ambush, which was triggered prematurely. The coordination of the ambush was well constructed; employing mines, mortars and small arms fire. The lead truck took some small arms fire accordingly but a poorly timed mortar attack on a bridge at 922420, helped to warn the convoy of the apparent danger. For the time the convoy's mission was aborted and they reformed at Ca Lu.

The 2nd platoon of Company "M" went southwest on route #9, to provide security for an engineer detail. The point man observed two enemy on the hillside, killing one and possibly wounding the other. The platoon then brought the body down to the road and then was attacked. Seemingly their movements interrupted preparations for another ambush on a convoy to Khe Sanh. An estimated NVA Regiment was within the area. The ambush extended 2000 meters, from 947427 to 967432.

2. NEW DEVELOPMENTS. A vast increase in enemy movements, sightings and contact have been observed within our TAOR. The employment of mines, booby-traps and claymore type mines have been utilized to delay and confuse the ambushed convoy. They also employed them to delay the sweeping force.

Several patrols and reconnaissance units operating within our area, have found several makeshift mortar positions and booby-traps near Payable's position. They have been reported to be no more than one week old. These apparent mortar positions had either claymore or directional type mines and booby-traps laid in and around their position; while the other had fighting holes around the position.

Also found was a possible training site or assembly area.

3. PROBLEM AREAS. The AN/TPS-21, AN/PPS-6, AN/PRS-1 continues to be lacking in the battalion.
4. WEATHER. The general outlook for July was predominately clear and sunny with sporadic rain showers. The temperature for the month mean high 94.7, and the mean low 76 degrees. A gentle wind generally blew from the southeast averaging between 7 to 11 knots.
5. INTELIGENCE ON ENEMY. See enclosure (1).
6. DAILY INTELLIGENCE SUMMARIES. See Appendix (1).
7. PRISONERS OF WAR. Two groups of thirteen refugees for a total of twenty-six. Two US Detainees.
8. ENEMY CASUALTIES. NVA/VC KIA (conf.) 5 NVA/VC (prob.) 0.
2 VC's Det. seen.

9. CAPTURED or DESTROYED EQUIPMENT/SUPPLIES.

1 Pith Helmet	Misc U.S. Gear
3 AK-47	Assorted documents
1 SKS	Misc 7.82 gear
7 AK-47 Magazines	Assorted Medical
1 Carbine Magazine	1 Block primed C-4
66 7.62 rounds	5 lbs. grain
43 Chicom grenades & mines	11 cans of fish
1 M-7 AP mine	3 cartridge belts

(8)

ENCLOSURE 2

8-3 CHRONOLOGY

1 July 1967. At 010835H at YD 015455 a Marine, MedEvac # T-3349, was MedEvaced with 1st and 2nd degree burns on 18% to 27% of his body. Medical assistance was required. A MedEvac was requested at 0835H and completed at 0905H.

2 July 1967. At 020845H at YD 062460 a patrol from Company "K" found a platoon size base camp approximately one month old with 35 fighting holes 2'x2'x2'. The patrol also found one pack board, 1 piece of acetate with writing on it, old C-Rations, and 10 lean-to type shelters. The area was searched w/negative results. It was believed to have been an old ~~AMV~~ camp.

At 021130H at YD 057460 a patrol from Company "K" found a trail broken through elephant grass. The trail ran north and south. The trail led to a stream and there were no signs of recent use.

3 July 1967. At 030800H at XD 926578 a recon patrol from Company "L" found 2 bunkers 5'x5'x3' covered with logs and dirt. The bunkers had a connecting trench and they were not destroyed.

At 030920H at YD 015455 Company "K" arrived at the Company "L" CP after completion of mission in accordance with Operation Plan 31-67.

At 032350H at XD 975566 a round of undetermined size landed within Company "I" CP wounding three Marines with shrapnel. A check fire of all H&I's in the area was made.

4 July 1967. No significant events.

5 July 1967. At 050700H at 3d Battalion, 3d Marines CP a Marine had an accidental discharge of a .45 caliber pistol. No casualties and no damage was incurred and an investigating officer was assigned.

At 052030H at XD 985525 an ambush from Company "K" spotted two lights moving in a northeast direction. An 81mm mission was called and the lights were extinguished.

6 July 1967. At 060635H at XD 987517 a patrol from Company "K" found two freshly dug holes 6-10 feet apart 3'x3'x1'. There were no trails in the area.

At 060930H at 3d Battalion, 3d Marines CP a 3/4 ton truck caught fire while unloading trash at 3d Battalion, 3d Marines trash dump. An investigation was conducted and forwarded through administrative channels.

At 062140H at XD 993516 Company "K" observed lights. An artillery mission was called with excellent coverage.

At 062245H at YD 0276 3d Battalion, 3d Marines located and sited a missile which apparently shot down a friendly aircraft. The missile was observed from the following positions: The Rockpile azimuth 0150, the Razorback azimuth 0420, 3d Battalion, 3d Marines CP azimuth 0100, Gio Linh azimuth 5420, Cam Lo azimuth 5940 and Dong Ha azimuth 5650.

ENCLOSURE (3)

S-3 CHRONOLOGY

7 July 1967. At 071935 at XD 957566 Company "I" CP on the ~~resort~~ took 1 sniper round. A fire mission was called with ~~unknown~~ results.

8 July 1967. At 080900H at Ca Lu 13 refugees arrived Company "L" position. They reported that they had escaped from the VC somewhere west of Ca Lu and had been evading the VC for about ten days. The refugees were given medical care and food and were forwarded to Cam Lo.

9 July 1967. At 090730H the morning run to Cam Lo to pick up Montagnards was presented with two 81mm mortar rounds by the children of a village in Cam Lo. The rounds were destroyed.

At 091410H at YD 015455 a Marine from Company "M" while policing the area in the immediate living vicinity was struck in the arm by a piece of casing from a .45 caliber round that exploded in the area. The Marine was treated by the Company "M" corpsman and an investigating officer was appointed.

10 July 1967. At 100530H at 3d Battalion, 3d Marines CP a platoon from Company "K" was put on a one hour alert to assist a recon unit in the Ba Long Valley area.

11 July 1967. No significant events.

12 July 1967. At 122130H Company "K" OP WYN observed two lights moving NW for approximately 20 minutes. The lights were about 20 meters apart. An 81mm mission was called excellent target coverage and the lights were extinguished.

13 July 1967. No significant events.

14 July 1967. At 140800H at 3d Battalion, 3d Marines CP the 3d Battalion, 3d Marines commenced a S&D operation IAW 3d Battalion, 3d Marines Frag Order 32-67. 3d Battalion, 3d Marines CP commenced using call sign X-Ray.

15 July 1967. At 150130H at Company "M" CP 5 incoming rounds were reported. A check fire was called on all artillery missions.

At 150135H at YD 015455 a Marine, MedEvac # V-3546 was wounded in the back by friendly artillery. He was a Non-MedEvac.

At 151935H at XD 976568 Company "I" had an accidental discharge of a claymore mine. An investigation proved that a defective trigger device caused the explosion. There were casualties.

16 July 1967. At 160500H at YD 005420 an AO observed what appeared to be a suspected mortar position and campfires. An artillery mission was called in on the sighting.

At 161615H at 3d Battalion, 3d Marines CP due to a heavy rain and thunder storm a bunker collapsed injuring one corpsman. A MedEvac was requested and completed at 1540H.

B-3 CHRONOLOGY

17 July 1967. At 171200H at YD 017451 a patrol from Company "M" found a projectile bearing Chinese markings. The figure 4.2 in Chinese characters was on it. The projectile had no fin assembly. It is approximately 18 inches long and 4 inches in diameter. The projectile is now at Ca Lu with Company "M".

18 July 1967. At 180910 at YD 012455 Company "M" departed Ca Lu in accordance with 3/3's Frag Order 36-67.

19 July 1967. At 192245 at XD 982569 a TPQ Drop was made in error on Company "I". There were negative casualties. Request incident be investigated.

20 July 1967. No significant events.

21 July 1967. At 211115 at XD 978489 a long range recon patrol from 3/3 reported hearing one shot delivered at an aircraft that was passing over the above coordinates. No artillery mission called at present because the area is located in a NFZ from 0730 to 1630. The area will be kept under surveillance.

At 211418 at XD 968434 a platoon from Company "M" while moving down Highway #9 made contact with what they estimate approximately a platoon of NVA/VC. On the high ground the platoon received small arms and automatic weapons fire. Small arms and M-60 fire is being delivered into the area and an artillery mission is in progress.

At 211530 at XD 970432 the remainder of Company "M" is moving to help Company "M" 2 at above coordinates, who is receiving small arms fire and automatic weapons fire. One platoon from Company "K" is being sent to Ca Lu to assume defense of position.

At 211530 at XD 970432 in contact with NVA/VC Company "M" has one emergency MedEvac. The Marine was hit in the legs and arms. A MedEvac was requested.

At 211600 at XD 979535 Company "M" has linked up with Company "M" 2 at this time. They have negative enemy contact.

At 211610 at XD 968451 Company "M" reported receiving approximately 120 - 82mm mortar incoming rounds. More information to follow.

At 211700 at XD 978432 the leading elements of Company "M" are still in contact with the enemy, they are trying to break contact. An artillery mission is being called into the area.

At 211700 at XD 970432 an emergency MedEvac was completed. See spot report 211545.

At 211730 at XD 970432 3/3 5A who is at Ca Lu reports estimated NVA Bn. north on Highway #9 at above coordinates trying to cut off Company "M" 6. Company "K" and the command group are about to depart for Ca Lu.

At 211800 at ~~CP~~ Company "K" and the command group with a light section of tanks have departed for Ca Lu to assist Company "M".

At 211825 at XD 970432 received report from 3/3 at Ca Lu that Company "M" is engaged with an estimated enemy NVA Bn. The NVA Bn. is dressed in new uniforms and they are well dug in. The fighting is at close range with grenades being used. The friendly casualties are estimated at this time as 10 KIA, 45 WIA. There is no count on the enemy kills.

At 212045 and at XD 970432 received word from Company "M" that they are withdrawing back to their position at Ca Lu. All units from Company "M" have not arrived at their CP as of yet.

At 212115 at YD 012455 all of Company "M" units have returned to Company "M" CP. A complete casualty report to follow once official information has been received from Company "M".

22 July 1967. At 221230 at 3/3 CP, 3/3 jumped off in accordance with Regt. planning message.

23 July 1967. At 231830 at YD 014454 while blowing class 3 a Marine, MedEvac # H-1543, received shrapnel wound in right mid back. Personnel was treated and was returned to duty.

At 231415 at YD 997542 a patrol from Charlie 1/9 found two booby traps. It included a mine facing in a north wasterly direction and an M-26 grenade with a trip-wire. Both booby traps were destroyed in place.

24 July 1967. No significant events.

25 July 1967. At 250500 at XD 978567 an artillery round landed approximately 25 meters from Company "I" perimeter. Direction from which it came will be determined by a crater analysis at first light. However it seems like it came from an east-southeast direction.

At 251100 in reference to spot report 250600H, a crater analysis showed that it was a 81mm mortar round. It had come from 3/3's CP. After the investigation it was confirmed that it came from 3/3's position.

At 252030H at XD 968562, Company "I" OP RAE, a U.S. Jet made a bombing run (TPQ) from east to west, dropping 2 to 4 bombs. Regt. 1-4 was notified immediately to check fire on TPQ's. TPQ's have been cancelled for the night in this area. Injuries were sustained by 13 men, consisting of superficial cuts and bruises, while seeking cover.

26 July 1967. No significant events.

27 July 1967. No significant events.

28 July 1967. No significant events.

29 July 1967. No significant events.

30 July 1967. No significant events.

31 July 1967. No significant events.

AIR SUPPORT AND DEFENSIVE CHRONOLOGY

1. Significant Events. Air contributions to the mission of 3d Bn. 3d Mar. during the month of July include; movement of troops, close and direct air support missions, aerial observation and extensive TPQ-10 missions.

2. New Developments. None.

3. Problem Areas. None.

4. Contributions. Very effective close air support was rendered during one operation during the month.

5. Air Support and Defense.

a. Number of close air support missions: 10. Target coverage was excellent. Air was credited with 4 confirmed NVA as KIA's. An estimated 36,500 pounds of bombs; 8,000 pounds of napalm and 28 zuni rockets were expended.

b. Number of general air support missions: 620. Target coverage was unobserved due to the nature of the strikes.

c. Number and type of air missions requested.

(1)	Troops	3 for 36
(2)	Logistics	3
(3)	MedEvacs	13 for 16
(4)	Recon	1
(5)	Spot/Observe	12
(6)	TPQ-10	640

d. Number and type of air missions completed.

(1)	Troops	3 for 36
(2)	Logistics	3
(3)	MedEvacs	12 for 14
(4)	Recon	1
(5)	Spot/Observe	10
(6)	TPQ-10	620

PERIODIC MEDICAL REPORT (SUM)A. NAME OF SURGEON IN COMBAT: ESTER, LC USNSIGNIFICANT EVENTS:

1. On 6 July 3 marines received wounds from friendly artillery.
2. On 16 July, 2 marines were wounded from friendly mortar fire, non-evacuated.
3. On 21 July, there were nine (9) killed in action and one Navy enlisted man.
4. On 23 July, there was one (1) KIA, and on 29 July one (1) KIA.
5. There were a total of 62 wounded in action personnel over the period 21 - 29 July 1967.

C. MEDICAL TRENDS:

1. Compared with the month of June, there were fewer cases of malaria and fewer heat casualties. All other conditions remain approximately the same.

D. NUMBER OF BATTLE CASUALTIES:

1. Killed in action: 12
2. Died of wounds: 01
3. Wounded in action: 62

E. NUMBER OF NON BATTLE CASUALTIES TREATED: 997

- 1(a) Lacerations: 73
- (b) Trauma: 12
- (c) Burns: 2
- (d) Insect bites: 6
- (e) ~~Diseases~~: 36
- (f) Animal bites: 9

2. Number of referrals to DASH: 84
3. Cases of significant disease:
 - (a) One case of mononucleosis
 - (b) Thirty-six (36) cases of suspected malaria.
4. Cases of Venereal Disease: 15
 - (a) Acquired in country: 00
 - (b) Acquired out of country: 15

F. PREVENTIVE MEDICINE AND SANITATION:

1. Immunizations administered this month totaled: 961
2. Insect and rodent control measures are continuing with some apparent effect.

G. CIVIL AFFAIRS, MEDICAL SUPPORT RENDERED:

1. There have been approximately 200 civilian natives treated during the month of July.

H. PROBLEM AREAS:

1. There are no significant medical problem areas at this time.

I. DENTAL REFERRALS: 84

COMMUNICATIONS-ELECTRONICS CHRONOLOG

1. Significant Events. The communications platoon was engaged in Operation Buffalo, Operation Hickory II, and Operation Kingfisher during the month of July. The communication platoon provided and maintained the necessary radio nets, wire systems, and message center, both forward and rear.
2. New Developments. None.
3. Problem Areas. The loss of two radios in combat and the lack of accessories were the major problems encountered.
4. Other Contributions. None.
5. Status of Communication Equipment.
- a. The over all status of communications equipment is good.
- b. The percentage of combat equipment available normally runs around 86%.
6. Inoperative or Unservicable Equipment.
- | | | | |
|----|----|---------------|------------|
| a. | 1 | AN/MRC - 109 | Radio Jeep |
| b. | 2 | AN/TPS - 21 | Radar Sets |

| (b) TPQ-10 Strikes | 50 |

6. Intelligence: The intelligence prior to the operation showed the following.

(1) Second Battalion, 3d Marines had been operating in the area southwest of Con Thien and it was believed that they had pushed the enemy into the Helicopter Valley vicinity YD 0261.

(2) Two weeks prior to the operation reconnaissance units had made contact in grid squares YD 0161 and YD 0164.

(3) G-2 carried the 9th Battalion of the 29th NVA Regiment in grid square YD 0162.

(4) Photo reconnaissance reports showed an increase in enemy positions in the area approximately 3000 meters north of Helicopter Valley.

(5) Enemy observation posts and squad size patrols were expected to be encountered on the ridgelines north of Helicopter Valley.

(6) The enemy's general increase in the use of artillery, rockets, mortars and tear gas was noted.

The operation itself produced very little of current intelligence value. No contact was made and no enemy were sighted. Two company size base camps were found but they were believed destroyed during the Operation Hastings, 11 months prior to the operation. An extensive system of trails was found but no signs of recent use were noted.

The terrain in the operational area consisted of the Dong Ha Mountain complex vicinity YD 0159, the Mutter's Ridge complex vicinity XD 9961 to YD 0162, and Helicopter Valley. Mutter's Ridge and the Dong Ha Mountain

area consisted of ridgelines, fingers, and steep draws. Helicopter Valley consisted of rolling hills and small streams. Vegetation on the high ground consisted of dense forest and double canopy. Vegetation in the valley consisted of elephant grass and scattered clusters of forest. Observation from the high ground was good although much of the operation was conducted in the valley where observation was limited by the high ground on both sides. There were no obstacles to foot troops, however, tracked vehicles could only be used early in the operation. Weather during the operation was hot and humid with scattered clouds and showers.

7. Mission. In accordance with reference (a) conduct a search and destroy operation through the valley west, northwest and north of the Dong Ha Mountain complex.

8. Concept of Operation. See reference (a), (b), (c) and (d).

9. Execution. Operation HICKORY II began at 0800H on 14 July with Company "L" departing from the 3d Bn, 3d Marines CP in accordance with reference (a).

No signs of enemy activity were detected during the first day. At 141800H Company "L" reported the establishment of a platoon at XD 994593. Company "K" and the Battalion Command Group reported a night position at XD 993593.

At 142000H under the cover of darkness the battalion units moved to alternate night positions in accordance with 3d Bn. 3d Marines SOP. Company "L" set in at XD 999599 and Company "K" and the Command Group set in at XD 987599.

At 150700H Company "K" and the Command Group moved out IAW reference (b). At 150815 Company "L" moved out IAW reference (b).

At 151250H at YD 002604 MedEvac number A-1126 was medevaced from the Command Group as a result of heat exhaustion.

At 151630H at YD 022608 Company "L" located a base camp that had been hit with two 1000 pound bombs. There were 89 bunkers 2'X4'X3' and three large bunkers 8'X16'X5' which were not covered. The majority of the bunkers were caved in.

At 151815H H&S Co. had tree MeEvacs. Two men were MedEvaced for heat and one had a bad leg.

At 152050H Company "L" and the Command Group set in for the night at YD 025612 and Company "K" set in at YD 029617.

At 160700H Company "E" moved out IAW reference (d). At 160915H Company "L" and the Command Group moved out with Company "K" in trace.

At 161130H at YD 039618 Company "L" located a six month old base camp with 20-30 fighting holes. Some of the holes were covered and some were not.

At 161500H Company "L" loaded on trucks at YD 091577. At 161600H Company "K" and the Command Group were loaded on trucks and returned to the 3d Battalion, 3d Marines CP.

Operation Hickory was terminated at 161600H.

10 Results. There were no enemy contact made during the operation. The battalion did not capture any enemy equipment. There were two casualties sustained in Company "M" due to friendly artillery rounds.

11. Administration and Logistics.

a. Supply. During the operation the resupply was normal. The only major problem was getting spare parts for vehicles and radios. Class I and II items remain in a normal status. There is still a critical shortage of work socks (all sizes). Class IV items are normal except for a shortage of long 5' and 8' metal stakes. Class V situation has improved. Supply is now able to obtain 81mm heavy ammo and now in the process of bringing all positions back to a normal status.

b. Maintenance. Tires and tubes for the M274 A1 male are still a major problem in the spare parts category.

(1) One of the Battalion's 2 MCR 109 radio jeeps is deadlined waiting replacement of wheel bearings which have been ordered. Also one of our MCR 83's is down with a burnt-out alternator which has to be fixed by Comm-Elect at F.L.S.U..

(2) The Battalion still has 3 three quarter ton M-37 PC's. One remains in 3/3's position while the other are being used in the rear.

c. Medical Evaluation. During Operation Hickory II there were two casualties due to friendly artillery. They were treated and returned to duty.

d. Communications. Communications was generally good during the first day and a half of the operation; was generally poor the last day and a half of the operation.

It is suggested the a relay station be set up on Dong Ha Mountain during any future operations in the valley running between Dong Ha Mountain and Mutter's Ridge. This should insure constant communications with both regiment and battalion.

Two radios went down during the operation. Both were found to have bad modules and have been repaired.

The extreme heat encountered during the operation reduced battery life from a normal three and a half days to two days.

12. Special Equipment and Logistics. The E-8 CS gas launcher was carried during Operation Hickory II. No opportunity arose to employ CS during the operation.

13. Command Analysis.

a. At the initial jump off, the Battalion moved with a platoon of tanks and twin 40's in direct support of Company "L". The nature of the terrain lent itself to movement of the armor and vehicles on the first day until late in the afternoon. Direct fire support was rendered on both Mutter's Ridge and Dong Ha Mountain. Thereafter, the tanks and twin 40's were released and returned to Company "I" position. The tanks, resupplied with ammo, returned the following morning to support the Battalion by direct fire in conjunction with artillery fire as the Battalion moved into Helicopter Valley. Tracked vehicles were unable to penetrate the valley so the tanks were released from further participation.

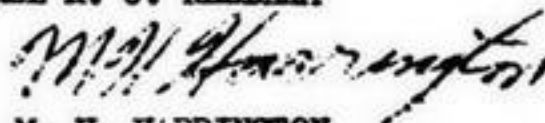

The possibility of enemy mortar capability dictated the setting in of final night positions after dark. Continued emphasis on supply and water discipline precluded the necessity of helicopter traffic thus preventing undue disclosure of unit advance.

14. Recommendations.

a. That units continue to employ deceptive final night position tactics whenever possible.

b. That continued emphasis be placed on supply and water discipline thus reducing the need for administrative helicopter support and preventing undue disclosure of unit locations.

(k)	40mm HE	4128

b. Air Support. During Operation Buffalo air support was provided by the 1st Marine Air Wing. We were provided aerial observation and MedEvacs upon request.

(1) Number of Direct Air Support Missions: None
 (2) Number and Type of Air Missions Requested:

(a)	Troops	1 for 28
(b)	MedEvacs	8 for 10
(c)	TPQ-10 Strikes	260

(3) Number and Type of Air Missions Completed:

(a)	Troops	1 for 28
(b)	MedEvacs	8 for 10
(c)	TPQ-10 Strikes	260

6. Intelligence. Prior to the operation the intelligence estimate showed small NVA units operating in the extremities of the operational area in the vicinity of Helicopter Valley (YD 0161), Mutter's Ridge (XD 9761), and the valleys at (XD 8762), (XD 8757) and (XD 8752), and the river valleys at (XD 9038) and (YD 0734). It was also believed that the NVA was infiltrating and building up its forces in the general vicinity of YD 0464, northeast of the operational area, and YD 0736, southeast of the operational area. Four to six man reconnaissance units were expected to be encountered in all parts of

the operational area. Small VC units were expected to be operating near Route 9 between Khe Sanh and Ca Lu. An increase in mining incidents was expected.

Intelligence gained during the operation proved the above intelligence estimate to be generally correct. Reconnaissance units operating in the extremities of the operational area continued to report sightings or contacts with small NVA units, although enemy contact in the immediate operational area was very slight. One sniper round was received by an observation post and lights were spotted at night.

The general weather picture was clear and sunny, with a mean high of 98 degrees and a mean low of 81 degrees. A wind generally blew from the southeast between 5 and 10 knots. Occasional scattered clouds were seen in early morning or late afternoon. Precipitation was light.

The terrain within the area of the operation varied from open and flat lands in the Ba Long Valley, to rolling foothills in the vicinity of the Battalion CP, to rugged hills and mountains along the southern, western, and northern boundaries of the TAOR. The vegetation varied from scrub brush and elephant grass in the flat and rolling terrain, and graduated to double and tripple canopy in the high hills and mountains. With the possible exception of some scrub brush and elephant grass areas, cover and concealment was excellent throughout the area. From prominent terrain features such as the Rockpile at XD 9856, observation was good. Avenues of approach were excellent and were provided by the many river valleys in the area. Obstacles were the Song Cam Lo and Rivers Do Quang Tri.

Psychological operations were conducted during the operation in the form of aerial drops and hand placements of psychological warfare leaflets.

Civil affairs activities were conducted during the operation and included "work for food" projects with Montagnards and MedCap patrols into hamlets. The attitude of the civilian populace was friendly and cooperative.

7. Mission. Conduct extensive combat patrols and night ambushes within the TAOR in accordance with reference (a).
8. Concept of Operation. See reference (a).
9. Execution. Operation BUFFALO commenced 021000H July 1967. This command was informed by message at 151635H from the 3d Marines.

During the operation the battalion conducted ~~day~~ combat patrols and nightly ambushes throughout the assigned T.L.O.R. The 3d Battalion 3d Marines made extensive use of long range patrolling activities.

At 090850H Company "L", 3d Battalion, 3d Marines was chopped OPCON to 3d Battalion, 4th Marines for defense of Camp J. J. Carroll.

At 121735H Company "L" returned to 3d Battalion, 3d Marines-CP and was chopped OPCON to 3d Battalion, 3d Marines.

Operation BUFFALO was terminated at 140800H July 1967 when the Battalion entered Operation HICKORY II.

10. Results.

USMC

KIA 0
WIA 3
MDC 0

NVA/VC

KIA (conf) 0
KIA (prob) 0

The following items of equipment were captured or destroyed: None.

11. Administrative Matters.

a. Supply. During the operation the resupply was normal, however, a few problems were encountered. There is a large problem obtaining spare parts for our vehicles and radios.

Class I and II items remained in a normal status. Problems were encountered in the Class II items because of a shortage of socks (all sizes). We have weapons which have been in third echelon maintenance for over a month because of a shortage of spare parts.

Class IV items are normal for a shortage of long 5' and 8' metal stakes. These items are a definite must in order to lay out defensive perimeter positions properly.

Problems encountered in the Class V category remain the same. This command has not been able to obtain 81mm heavy or medium mortar ammo from A'EP. There is a sufficient amount of 81mm light ammo on each position.

b. Maintenance. During the operation several problems occurred in the maintenance category. There is a critical shortage of spare parts for our vehicles such as tires for the M27 which have been on order since 18 November 1966. Inner tubes, wire rope assembly, tie rod ends and many other parts for this particular type vehicle have been ordered and have been upgraded to priority O2.

The battalion has been unable to obtain the following critical items. Carburetors for the M50-109, oil filter elements and spark plugs for the M422A1.

The battalion acquired three three-quarter ton personnel carriers. One is used at our forward position, one at the battalion rear and one is on 2nd echelon maintenance.

c. Medical Evaluation. During Operation BUFFALO there were three battle casualties, and no difficulties.

d. Communications. Acquiring accessories for the AN/PRC 25 continues to be a major problem.

12. Special Equipment and Techniques. The F-8 CS gas launcher was carried during Operation BUFFALO. No opportunity arose to employ CS during the operation.

13. Commanders Analysis.

a. While in a defensive posture, the Battalion must be ready to respond to any contingency which could exist. Continued use of patrol activities and nightly ambushes should not preclude the Battalion from returning to a ready posture.

14. Recommendations.

a. That alert/contingency plans be constantly reviewed and drills conducted.

b. Air Support

Air support during the operation was provided by the 1st Marine Air Wing. We were provided Close Air Support, Aerial Observations, Medical Evacuation and Resupply.

(1) Number of Close and Direct Air Support Missions: 10

Target coverage was excellent. Orwood 14-1 credited with four (4) confirmed NVA as EBNA. An estimated 36,5000 pounds of bombs, 8,000 pounds of napalm and 28 Zuni rockets were expended.

(2) Number of General Air Support Missions: 180

Target coverage was unobserved due to the nature of the strikes.

(3) Type and Number of Air Missions requested:

<u>Type</u>	<u>Number</u>
(a) Recon	1
(b) MedEvac	9 for 37
(c) Spot/Observe	10
(d) Flare Ship/Puff	2
(e) TPQ-10 Strikes	190
(f) Resupply	3

(4) Type and Number of Air Missions completed:

(a) Recon	1
(b) MedEvac	9 for 37
(c) Spot/Observe	9
(d) Flare Ship/Puff	1
(e) TPQ-10 Strikes	180
(f) Resupply	3

6. Intelligence. Intelligence prior to the operation indicated possible enemy units operating in the vicinity of Ca Lu Outpost with the mission of attacking the Long Ka-Khe Banh convoys on Route 9. Reportedly, a VC heavy weapons company was operating near XD 9447 and an NVA battalion was operating near YD 0141. A one company sweep of YD 0141 revealed no enemy units operating in that area. Intelligence concerning the above enemy units and their mission came from agent reports and reconnaissance units.

Intelligence gathered during the operation revealed that preparations had begun about 15 July for a 2000 meter ambush of Route 9 conducted by an estimated NVA regiment. Preparations for the ambush were about three days from being completed when enemy contact was made on 21 July.

On that date a convoy was in process west of Ca Lu when the bridge security at XD 922420 received mortar rounds and small arms fire. The convoy reversed its movement and returned to Dong Ha. A platoon was dispatched from Ca Lu to aid an engineer team on Route 9, vicinity of check point 13. At XD 964428 the platoon observed and killed one NVA. The enemy, located north of Route 9, showed excellent fire discipline by first sniping at the platoon, and then graduating to heavy automatic weapons fire, which pinned down the position of Marines. A company minus which reinforced the platoon was also pinned down by heavy automatic weapons fire, 200 rounds of 82mm mortar, attempted envelopments, and sniper fire from south of their position. The enemy, under heavy bombardment by supporting arms, broke contact and withdrew up draws to the north. The enemy force was not dug in and appeared to be trying to stop the Marines from discovering the ambush site further to the west.

The ambush site extended 2000 meters from XD 947427 to XD 967432 and possibly further west of that area. Over 500 fighting holes were found on the high ground north of Route 9, all within hand grenade distance of the road. Directional AP mines were employed in front of the fighting holes and pull wires ran to the holes. Chicom mines with tripwires were employed along the south side of Route 9 approximately every 50 meters from XD 947426 to XD 957427, and preparations were underway to place mines along the entire length of the ambush.

The main CP and harbor site for the ambush appeared to have been a battalion size base camp located vicinity XD 956435. The camp had over 200 fighting holes (2x3x5ft) and 25 reinforced bunkers (4x6x5ft). The bunkers had one entrance and a roof made of four layers of sawed logs and 18 inches of dirt. Banana leaves or cut trees provided camouflage. Eight cooking houses (4x4x2ft) with upside down V-shaped roofs made of several layers of banana leaves were discovered. Undergroun smoke-releaser tunnels ran uphill from the cooking houses. Over 60 additional bunkers were in various stages of construction. An additional base camp consisting of 100 fighting holes and 50 bunkers with roofs made of logs and dirt was located vicinity XD 948439. Communication wire ran from the

main CP camp to the additional base camp to the ambush positions, along the entire length of the ambush, and then back to the CP camp. In addition the observation post was located on the high ground at XD 968423, and observation of Route 9 was excellent from Ca Lu to the western edge of the ambush site. Communications wire ran from the CP across the river to the vicinity of XD 964436, and then to an unknown location. Rocks were tied to the wire to keep it underwater.

Two deep caves, partially completed, were found vicinity XD 976436. The caves, extending 30 ft. into the hillside to a T-shaped room, provided excellent observation and fire on the bridge at XD 977434 and probably were intended to stop reinforcing troops.

Gear and equipment found along trails leading into the CP camp and north from the camp, indicated the enemy withdrew from the area in haste to the north. Several indicators show an unknown number of enemy were located on the south side of the river paralleling Route 9 and may have withdrawn to the south: (1) Mike Company received sniper fire from south of the river. (2) One mine was tripped on the south shore of the river. (3) Pack straps and a shoulder harness for heavy hauling were found near Hill 118. (4) Fresh straw and one NVA document were found in a hough vicinity XD 957426.

The Kit Carson Scout and Battalion S-2 scouts were employed with great success during the operation as intelligence sweep teams, and were instrumental in discovering most of the mines and enemy positions located. The weather during the operation was generally cloudy with scattered showers. The critical terrain consisted of the high ground north of the ambush site, along Route 9, specifically the Hills 214, 216 and 247. Observation from the critical terrain was excellent when not limited by vegetation. The vegetation was dense, usually double canopy. Excellent avenues of approach, vegetation permitting, were provided by the north to south fingers and draws, and Route 9. Enclosure 1 illustrates overlay of ambush site and positions using 1:25,000 photo map sheet 6342 II N.

7. Mission. IAW 3d Bn, 3d Mar. Frag Order 40-67, reference (a), conduct a three company sweep of Route 9 to north-south grid line 95.

8. Concept of Operation. See reference (a).

9. Execution. At 21100H IAW reference (b), Company "K" departed as security for a convoy heading west along Route 9 for Khe Sanh.

At 211200H at division checkpoint 13 an enemy ambush was prematurely triggered. The convoy returned to 3d Battalion, 3d Marines CP.

At 211410H at XD 968434, the 2d platoon of Company "M", while moving down Highway 9, made contact with an estimated NVA platoon. The platoon received small arms fire and automatic fire from high ground overlooking the road. Small arms and machine-gun fire was returned. Arty missions were also called with excellent target coverage.

At 211530H at XD 970432 the remainder of Company "M" moved out to aid the 2d platoon. One platoon from Company "K" was sent to Ca Lu to assume the defense of the position. Company "M" requested an emergency MedEvac for a Marine who was hit in the legs and arms.

At 211600H at XD 979535, Company "M" linked up with the 2d platoon of Company "M". No enemy contact.

At 211610H at XD 965451, Company "M" reported receiving 120 incoming mortar rounds. An arty mission was called into the area.

At 211730H at XD 970432, the 3d Battalion, 3d Marines XO estimated an NVA battalion at XD 970432 trying to cut off Company "M".

At 211800H Company "K" and the Command Group departed the 3d Bn, 3d Marines OP enroute to Ca Lu.

At 211930H estimate Company is against an NVA battalion in new uniforms which were well dug in.

At 211930H Company "K" and the Command Group departed Ca Lu with armored support to aid Company "M". At 211945H all 3d Bn, 3d Mar. units reported breaking contact.

At 212040H all units were back at Ca Lu.

At 221200H the 3d Bn, 3d Mar. (-)(Rein) assumed OPCON of Company "C" 1st Battalion, 9th Marines at Ca Lu.

At 221320H at XD 987442, tanks with Company "K" reported secondary explosion as a result of recon by fire.

At 221555H at XD 984438 lead elements of Company "K" report receiving small arms fire. Contact was broken at 221620H.

At 221600H at XD 984438 a village of 21 Montagnards was searched. The patrol found the village chief, who villagers reported as dead four weeks earlier. Found in the village was assorted rice in 30 bags, corn, one brown NVA utility shirt, a wallet photo of a Marine wife and child, medical

supplies and several USMC utilities with blood stains. The village is located on an infiltration trail from North Vietnam. The villagers were questioned but would reveal no information about NVA/VC activities. The village chief was taken to Cam Lo CTT for interrogation.

At 1725H an air strike was conducted in the vicinity of XD 968437. Oxwood 14-1 and 14-2 killed 4 NVA. There were several secondary explosions. Dream Hour 3-8 sighted an automatic weapon believed to be a .50 caliber machine-gun.

At 230945H at XD 979437, Company "K" encountered an enemy machinegun and suffered 1 KIA and 2 WIA. An airstrike and several artillery missions were called on the area.

At 231510H Company "K" moved to Hill 216. The air preparation of Hill 247 was completed and Company "L" started up. At XD 956429, Company "L" found several Chicom mines and destroyed them. Company "L" found an AK-47 and an SKS at the same position.

At 231630H at XD 966430, Company "L" searched the battlefield in the area of Company "F"'s contact and found one USMC KIA, one NVA KIA, two NVA weapons and miscellaneous US gear. All of the gear was policed up and returned to Ca Lu.

At 241215H at XD 955027, a patrol from Company "K" found one canteen, one pair of NVA shoes, 2 NVA sandals, 15-7.62mm shells, 3 Chicom grenades, 1 hammock, 1 cartridge-belt with 2 grenades, 1 poncho, 1 ditty bag, 1 carbine magazine and some documents.

At 241650H at XD 949426, a patrol from Company "L" found several mines, 3 Claymore mines and over 500 fighting holes.

At 250950H at XD 953433, Company "L" found 2 AK-47's and 1 foot in a sneaker, 7 AK-47 magazines, a well used trail with fighting hole and sleeping holes at approximately 251300H convoy passed there enroute to Ene Sanh.

At 251500H at XD 948429, Company "L" found a mortar position for 1 82mm mortar and 7 fighting holes, 2'X3'X3', of which 3 were covered.

At 251100H at XD 976435, Company "C", 1st Bn, 9th Mar. found 2 deep caves on the side of a hill overlooking a bridge on the road.

At 261500H at XD 956435, a Company "K" patrol found a battalion size base camp with 25 reinforced bunkers, 200 fighting holes and 7 cooking bunkers.

At 261845H at XD 967427, a patrol from Company "C" tripped a mine and injured one man. He was MedEvaced by helicopter.

There were no significant events on 27 July 1967.

At 280800H at XD 970427, an S-2 scout patrol found an CP site connected by wire to a battalion base camp with excellent observation of Route #9.

At approximately 281000H convoy passed position enroute to Dong Ha.

At 281435H at XD 953433, Company "L" requested a MedEvac for 2 possible malaria cases. MedEvac was completed at 281550H.

At 291100H a resupply convoy passed XD 975435 enroute to Khe Sanh.

At 291700H the convoy passed XD 975435 enroute to Dong Ha.

All units mounted truck transportation enroute to 3d Bn, 3d Mar. CP when the convoy passed. All units were at the CP at 292000H.

The 3d Marines CP was informed when all units were in place and the operation was secured.

10. Results.

TOTALS

KIA 13
WIA 42
DOW 1
NBC 9

The following items of equipment were captured or destroyed.

180 Lbs. of rice, bulger, corn.
10 Lbs. of salt.
3 brown utility shirts (NVA)
1 wallet
bandages
USMC utilities
10 Chicom mines
4 AK-47
2 SKS
1 sniper rifle
15 rounds 7.62
11 Chicom grenades
2 sandals (NVA)
1 poncho
1 carbine
7 AK-17 magazines
4 M-7 AP mine
6 pair of sneakers
11 primed block C-4
5 cartridge belts
4 recon hats
1 pith helmet
1 anti-U.S. propaganda sheet
capsules of medical compound
Miscellaneous documents

11. Administrative Matters.

a. Supply. During the operation the Battalion operated just outside Ca Lu. During this time the resupply was made by truck. Resupply for the operation was good except in some cases where there was a lack of transportation. Class I and II items were made available for the operation. Class V ammo was plentiful and available. There was a shortage of 81mm ammo, however, sufficient quantities were available at all times to suffice.

b. Maintenance. During the operation, Motor transport supported the Battalion with three vehicles, carrying MCI's and ammo to the forward position. No problems were encountered except the wear and tear on the vehicles. It is advisable that during an operation of this type, we require 9th M. T. to provide us with an additional vehicle for the purpose of supporting the Battalion. This will cut down greatly on the upkeep of our M 422A1's which are in very bad shape because of lack of spare parts.

c. Medical Evaluation. On the subject operation there were 13 KIA's, 42 WIA's, 1 DOW and 8 Nonbattle casualties. The above listed casualties are broken down into the following categories:

Gun sot wounds	21
Shrapnel wounds	24
Injuries	35
Heat Exhaustion	5
Battle fatigue	3
FUO (possible Malaria)	3

Five of the above casualties were Army (1 KIA and 4 WIA). Two of the above were WIA's from C 1/9.

d. Communications. Communications was generally good throughout the entire operation. To maintain contact with our rear and with regiment, it was necessary to set up a radio relay on Hill 118. This relay was also useful in maintaining communications between the CP group and the line companies. The only losses of radio gear was sustained by Company "M" which lost two radios. Lack of AN/PRC 25 accessories proved to be a continuing problem.

12. Special Equipment. None.

13. Commanders Analysis.

a. The NVA quickly determine the patrol radius we are able to effectively maintain and go to great lengths to prepare a detailed ambush in these gaps along the M.S.R.

b. Hamlets which are not effectively under continuous G.V.N. control in remote areas such as this, provide possible harboring sites for NVA units operating in the vicinity. These hamlets hinder the effective employment of H&I fires and recon by fire from mobile units.

c. There were 2 hamlets in this operating area consisting of approximately 25 and 70 persons each. Both hamlets were searched and questioned by a Kit Carson Scout and an ARVN interpreter with negative results.

d. Visual sweeps from vehicles are not sufficient to ensure the security of convoy routes and aerial observation is limited in most areas.

14. Recommendations.

a. That sufficient time and resources be made available to the Bn. to effectively and continuously patrol the areas adjacent to the MSR.

b. That hamlets not under continuous and effective GVN control either be relocated or brought under the control of GVN forces.

BY COMMAND OF LIEUTENANT R. C. HENDHAM

M. H. HARRINGTON
Major, United States Marine Corps
Executive Officer
